Point of sale

Would you like full flexibility to sell merchandise or gift vouchers, manage client credits or accounts owing?

- Enables multiple payments, casuals, series sales, petty cash management, product returns, service refunds and multiple tills
- Connects to receipt printers, cash drawers, barcode scanners and touch screens
- Design your own receipts

Gift Voucher

Encourage repeat business, bring in new customers

- Complete gift voucher management system that enables a numbered, fully trackable voucher system as part of your marketing efforts
- Options for your own numbering and partial redeeming
- Know your Gift Voucher Liability all the time

Client database

Fully customisable, privacy protected systems

- Access demographics, payments, service and sale history
- Design your own initial consultation, and treatment notes. Store photos
- Track staff access to all records, limit access to any sensitive information

Marketing

Set up your marketing, track the results

- Step by step data searching generates a specific list of people for mail merge, email and 1 or 2 way SMS marketing. The software will then track who responds to your marketing as they respond
- Loyalty Clubs such as discount and points clubs are easily managed – you can track all member clients and print plastic classic or smart cards with photos and other client details
- Gather lists of client names with criteria (like 'all facial clients came last month') to use in your marketing
